# IUR Regional Forum Strengthening Radioecology in the Asia-Pacific

4 September 2016  
Sanur, Bali - Indonesia

## Summary of Workshop

[www.iur-uir.org](http://www.iur-uir.org)

# Regional Forum: Strengthening Radioecology in the Asia-Pacific

- 14 participants
- 5 countries attending (Australia, Fiji, Indonesia, Japan, New Zealand) + 1 country – Thailand providing overview of activities
- 4 organisations (IUR, SPERA, IAEA, SETAC-Australasia)

## Agreed common objectives

- Strategic Research Agenda (Asia-Pacific)
- Modelling and assessment
  - improve/better integrate Asian/Pacific data (e.g into ERICA; ASPAMARD)
  - Asian diet modelling (human exposure)
- Improved communication and visibility of activities
- Input to MODARIA-II
- Capacity building
  - Training
- Shared platforms
  - Laboratories
  - contaminated sites
- Strengthen linkages with SETAC both at global and regional level

# Potential timeline: Actions from Bali

- Revise and distribute new ToR for regional task group - end 2016
- Identify research priorities
  - Present at IUR Global FORUM May/June 2017
- Conduct survey of potential shared platforms (via IUR)
- Strengthen co-operation IUR-SPERA-SETAC and others
- Work with IUR/ERICA consortium to improve ERICA tool and organise ERICA course
  - Consider UNSCEAR Research Priorities
- Regional Technical Cooperation (IAEA) proposal – due Feb 2018
- Joint conference/workshop strategy or plan for IUR/SETAC/SPERA
  - Plan a regional IUR/SPERA conference for 2018?
